

The simplest way to ensure that you can login to the website is to add kingjesus.com and calvarylm.org to your trusted sites list. This is for Internet Explorer users.

In order to do this, Click on Tools -> Internet Options

Click on the Security Tab

Click on Sites

Uncheck the "Require server verification (https:) for all sites in this zone"

Type in the 2 sites shown above and add them to the list.

Click on the Close button and then on the OK button.

Try logging into the website again.

If you continue to have issues email me at webservant@calvarylm.org.
